**[Introduction]**

My name is Manoj Singhal, a Senior Member of IEEE with over two decades of industry experience. I have had the privilege of working with renowned organizations such as Symantec, IBM, HGST, and Cohesity, focusing on Data Management and Cloud technologies.

My expertise lies in designing and developing high-quality, scalable systems, with a strong focus on quality assurance. I have hands-on experience with virtualization, distributed systems, and cloud technologies. Currently, I am deeply engaged in the evolving fields of AI and Machine Learning, and seeking opportunities to collaborate and learn.

**[Education & Expertise]**

I hold a Master's degree in Electrical Engineering from IIT Delhi and have developed deep expertise in technology-driven innovation, resulting in multiple patents and contributions to international conferences. I serve on the review boards of prestigious organizations such as the International Conference on Information Management & Machine Intelligence (ICIMMI), the Journal of Emerging Technologies and Innovative Research (JETIR), the Journal of Computational and Cognitive Engineering (JCCE), and IEEE Access. I also served as Chairperson for a technical session at the International Conference in Series Youth 2025 on "NETRITVA 4.0," Jaipur.

**[Selected Achievements]**

- **Patents**
  - "Using a secondary storage system to maintain functionality of a database during database migration" (US11232067B2; Date of patent: 01/25/2022)
  - "Restoring a database using a fully hydrated backup" (US11740974B2; Date of patent: 08/29/2023 / International filings: Australia AU2018324425B2, China CN111316245B, WIPO WO2019045987A1, Europe EP3451173B1 (granted 06/24/2020))
  - "Efficient database migration using an intermediary secondary storage system" (US11663171B2; Date of patent: 05/30/2023 / International filings: China CN113424170A / WIPO WO2020150393A1, Europe EP3895033B1 (granted 03/15/2023))
  - "Reducing the impact of network latency during a restore operation" (US20220255826A1; Date of patent: 08/11/2022 / International filing: China CN116868173A, WIPO WO2022173652A1, Europe EP4291983A1)
- **Research Papers & Articles**
  - "Protecting customer databases to shield business data against ransomware attacks in a hybrid production environment," Feb 2022, ICIMMI '22 Proceedings, Jaipur, India.
  - "World 2050 (How the World will Look Like in 2050)," Feb 2022, Youth 2025, Jaipuria Institute of Management, Jaipur, India.

- “Transformation of Technical & Management Leadership for Enterprise Success,” Feb 2023, 10th International Conference on "NETRITVA 4.0," Jaipur, India.
- “Digital Revolution: Transforming Governance, Geopolitics, Business, and Economics in the 21st Century,” Feb 2024, Jaipuria Institute of Management Jaipur, India.
- “AI-Driven Green Testing: Optimizing Efficiency and Sustainability in Software Testing,” Oct 2024, Journal of Information and Optimization Science (JIOS).
- “Mitigating Cloud Disruptions: An AI-Driven Approach to Proactively Assess and Resolve Impact on Customer Workflows,” Aug 2024, International Conference on Platform Technology and Service, Jeju, Korea.

**[Current Focus & Engagements]**

Currently, I am deeply engaged in the evolving fields of AI and Machine Learning, seeking opportunities to collaborate and contribute alongside fellow industry leaders. Recently, I was invited to present my research at the “International Conference on Platform Technology and Service” in Jeju, Korea. Additionally, in 2022, I had the opportunity to present at the International Conference on Information Management & Machine Intelligence in Jaipur, India.

I am passionate about inspiring the next generation of technologists. In the TechGuide Podcast (Episode #39), I shared insights on navigating careers in both startups and corporations, aiming to inspire listeners to make an impactful career in technology, in another podcast I talked about ***“How to Stand Out as a Lead Software QA Engineer!”,*** *and in one more podcast* we talked about “***What is SaaS and Why is it Important for Testers to Understand***?”

**[Speaking Topics of Interest]**

- Applied AI & ML in Data Management: Practical Innovations and Real-World Use Cases
- Confidential Computing: Enhancing Privacy and Security in Hybrid Cloud Environments
- Data Protection in the Cloud Era: Proactive Strategies Against Ransomware and Disruptions
- Digital Revolution 2050: How Governance, Business, and Economics Will Transform
- Performance Optimization in Data Systems: Data-Driven Strategies for Enterprise Success
- Quality Assurance for AI and Cloud: The Future of Reliable, Scalable Applications
- Green Testing: Integrating Sustainability into Software Testing with AI
- Inspiring Tomorrow’s Technologists: Leadership Lessons for the Next Generation

I look forward to sharing insights, discussing emerging trends, and inspiring others. Thank you for considering my application. I look forward to the opportunity to collaborate and share my expertise.

Warm regards,
**Manoj Singhal**
Senior Member, IEEE
Lead Software Development Engineer in Test, Nutanix,
California, USA
